

ENVIRONMENTAL HYGIENE GROUP

- ABATEMENT VERIFICATION ASSESSMENTS • PROTOCOLS FOR SANITIZATION/CLEANING
- SITE SPECIFIC ABATEMENT PLANS • OPERATION-SPECIFIC RISK MANAGEMENT PLANS

Pario's **Environmental Hygiene Services** pairs highly trained experts with advanced technology to mitigate risks, providing protection with peace of mind.

NATIONAL LEADERSHIP

MARK SAMIS - VP, Environmental Services

Mark specializes in risk management related to phase I, II, and III environmental site assessments, spill remediation, peer review and subrogation support, remediation planning, and surface water/groundwater monitoring. Professional experience includes leadership at national and international environmental consulting firms. He holds a Master of Science, Geology, and MBA. Member of the Association of Professional Geoscientists of ON, and the Association of Professional Engineers and Geoscientists (NB, SK, AB).

BRODY MOSSMAN - Head of Environmental Hygiene Services
Chartered Chemist & Occupational Hygienist

Brody is a Chartered Chemist and Occupational Hygienist with expertise in workplace risk mitigation. As a Registered Occupational Hygienist, he specializes in interior air quality assessment, risk management, industrial approvals, regulatory compliance audits, and human health and ecological risk assessments. He holds Chartered Chemist certification, and Professional Chemist designation. He's worked for NS Environment, and as an analyst in the Inorganic Chemistry Division of a leading testing, inspection, and certification services group.

JOELLE REID - Senior Project Manager
Health and Safety Professional

A Canadian Registered Safety Professional, Joelle specializes in occupational health and safety, environmental hygiene, hazardous materials management, water/mould damage remediation, fire/smoke migration assessment, indoor air quality assessments, emergency spill containment/remediation, infrared thermography assessments, and project mgmt./site mgmt. of large-scale, complex-loss remediation. She holds a CRSP, is a Certified Technician, and a Certified Level 1 Infrared Thermographer. She has a B.A. in Environmental and Health Studies, and a Graduate Certificate in Urban Land Regeneration.
